Hong Kong Society for Simulation in Healthcare (HKSSiH) is organizing an annual scientific conference in Hong Kong.

The conference will be held on 20th Oct 2018 at Regal Kowloon Hotel in Tsim Sha Tsui, followed by post-conference workshops on 21st Oct 2018. The conference theme – “*Simulation for Healthcare and Beyond*” – aims not only to explore topics within healthcare simulation, but to delve into applications of simulation in other professions such as clinical psychology, fire services and government flying service. Novel insights into technological advances in the field of simulation including virtual reality technology and 3D-printing will also be explored. Similar to previous years, this regional conference will provide a great platform for people with passion in simulation to share, exchange ideas and strive for improving simulation education in Asia.

On behalf of organizing committee of HKSSiH Annual Scientific Conference 2018, I have the pleasure in inviting you to join our event this year. If you have any questions, please feel free to contact Ms. John Cheung at johncheung@medsim.com.hk

Thank you and look forwards to seeing you in October!

Yours truly,

Dr. Albert Chan Dr. Shirley Ngai Mr. Peter Lai
